Sources: General Household Surveys 1980 and 1990; General Lifestyle Survey 2009, Office for National Statistics.

Note: For 2000 and 2009 figures for private lettings with a job or business are included within the figures for private unfurnished and furnished lettings. The 2009 figures are also for the 'household reference person', which has replaced the old concept of household head.

Total	100	100	100	100	100	100	–	100

Sources: General Household Surveys 1980, 1990; General Lifestyle Survey 2009, Office for National Statistics.

Notes: Excludes members of the armed forces, economically active full-time students and those who were unemployed and had never worked. For 2009, 'Never worked and long-term unemployed' are included as a separate category. Skilled manual includes own-account non-professionals. Semi-skilled manual includes personal service. 2000 and 2009 figures include private lettings with a job or business within unfurnished and furnished lettings. They are also for the household reference person.

1. From April 2001 the National Statistics Socio-economic classification (NS-SEC) was introduced for all official statistics and surveys. It replaced Social Class based on Occupation and Socio-economic Groups (SEG).
