Source: Department for Levelling Up, Housing and Communities (and its predecessors) Local Authority Housing Statistics (LAHS) and from 2019/20, the Regulator of Social Housing Local Authority Data Return (LADR).

- Notes:
1. Local authority rents are net of service charges and are based on stock-weighted averages and include rents for general needs, supported accommodation and, from 2012/13, Affordable Rent housing.
  2. There are discontinuities in the data. Most significantly, data before 2003/4 were not standardised for 52-week rents and may also include service charges. Data prior to 1997 are based on averages for the financial year.
  3. The LADR records details of rents for all council-owned dwellings and not just those held on the housing revenue account (HRA). This boosts the estimated council-owned social rented stock by around 0.1%.
  4. Imputations for years 2012/13 to 2014/15 were removed from the published data in 2022 to ensure consistency with other years, which has resulted in some changes to the rents reported for this period.
  5. Revisions to the stock and rent data for some local authority data has had a minor impact on regional figures for some years.
  6. Rents for the four years to 2019/20 were subject to the Welfare Reform and Work Act (2016). It required local authorities in England to reduce rents by 1% per annum for most social rented homes.
  7. There have been revisions to some local authority data across the years. This has resulted in minor changes to regional/national figures.

Source: Tenant Services Authority (Regulatory and Statistical Return) to 2011, Homes and Communities Agency (Statistical Data Return) to 2017/18 and the Regulator of Social Housing (SDR) from 2018/19.

Notes: 1. Figures are based on social rents (i.e. exclude Affordable Rents) for self-contained general needs stock as reported by larger housing associations and exclude service charges.

2. The threshold for a larger PRP increased in 2007 from owning/managing 250 to 1,000 units/bed spaces. Since 2012, larger PRPs have owned at least 1,000 units/bed spaces.

3. Rents for the four years to 2019/20 were subject to the Welfare Reform and Work Act (2016). It required housing associations in England to reduce social rents by 1% per annum for most social rented homes.
