Sources: See tables for local authority gross investment in each country.

Notes: Capital provision includes all credit approvals, and capital grants, excluding provision for the Estate Action programme in England, which is shown separately, and the Urban Programme. Local resources comprise use of capital receipts and RCCOs (revenue contributions to capital outlay). Estimates of use of local resources are included for 2003/04. Welsh capital provision figures include capital vired to Housing for Wales for local housing association schemes. Scottish figures for 1995/96 and 1996/97 exclude provision for transfers of existing new town stock. Scottish figures do not include new community ownership and fuel poverty programmes introduced in 1999/00. The figures for 2003/04 are estimates taking into account the impact of the Dumfries and Galloway, Glasgow and Scottish Borders' stock transfers.
