Notes: 1. The 1980/81 figures for expenditure on services are derived from earlier public expenditure plans, and figures for the adjustments between total expenditure on services and Total Managed Expenditure are not available.

2. Includes contributions to the European Communities and activities required for the general maintenance of government, such as tax collection and the registration of population.

3. Cash figures adjusted to 2005/06 price levels by excluding the effect of general inflation.

4. While it is not possible to update this table due to changes in classification it is retained because it provides historic data showing housing as a proportion of total expenditure.
