Notes: 'Lower income boundary' is the income which is at the bottom of the range in each of the deciles.

All tenants whose accommodation goes with the job of someone in the household are allocated to 'rented privately', even if the landlord is a local authority or housing association, or if the accommodation is rent free.

Squatters are also included in this category.

Unfurnished includes partly furnished. Figures in *italics* should be used with caution as they are based on a very small sample.
