Notes: Local authority provision and investment figures for years to 1998/99 do not include credit approvals vired to Housing for Wales. Net local financial resources include the use of capital receipts and revenue contributions to capital outlay.

They are also net of decisions by councils to use 'housing' credit approvals to finance investment in other services. For the years to 2007/08 net local financial resources are balancing figures between capital provision and outturn housing investment.

For 2009/10 they are a rounded estimate based on trends in available receipts and 'unsupported' prudential borrowing. For the years to 2003/04 capital provision includes capital grants and credit approvals. From 2004/05 capital provision includes capital grants, major repairs allowance (MRA) and indicative levels of supported prudential borrowing. 'Unsupported' prudential borrowing is included in net local financial resources. Housing association provision figures are outturn for years to 2012/13; and provision from 2013/14.
