Sources: Housing and Construction Statistics, Regional Trends, New Earnings Surveys, Annual Survey of Hours and Earnings, Scottish Government, Communities Scotland, Joint Centre for Scottish Housing Research, Family Resources Survey, Scottish Housing Regulator.

Notes: Rent figures are for financial years (e.g. '2009'=2009/10). Earnings figures are for calendar years. Average local authority rents and the subsidy assumption rent levels (used to calculate Housing Support Grant) refer to the financial year; as from 2007/08 the only local authority receiving Housing Support Grant has been the Shetland Islands Council. The housing association assured and fair rent figures from 1990 to 2007 are derived from SCORE returns and are mean rents inclusive of service charges eligible for housing benefit; from 2008 they are net rents, from the Scottish Housing Regulator's performance tables. Earnings figures are average earnings for Scotland for all adults in full-time work. Housing benefit rents are the median appropriate rents for the calendar year. Scottish Rent Officer statistics for private sector fair rents, and the 'appropriate' rents in housing benefit cases, were not collated for 1994 or 1995. The private fair rents figures for the years to 1993 are for unfurnished lettings only. The fair and market rent figures from 1996 are for both furnished and unfurnished lettings. The all private rents figures from 2002 are for all lettings (except those that are rent-free) and are for financial years. Figures for 2013 were not available at time of compilation.
