Sources: DCLG Live Tables, Housing Statistics (various editions), Scottish Government and Welsh Government.

- Notes:
1. For years up to 1990, all figures are for the December of the year shown. For England and Wales, from 1991, figures are those for March of the year shown. For Scotland, from 1991 to 2000, figures are those from December of the previous year and from 2001 onwards are for March of the year shown. For Northern Ireland, figures from 1991 to 2001 are for the December of the previous year and figures from 2002 are for March of the year shown.
  2. 1991 figures for Scotland and Northern Ireland are not available, so 1992 figures have been substituted.
  3. Owner-occupiers includes shared owners and long leaseholders. Private renting includes renting with a job or business. Local authority tenants includes new town tenants. NIHE is the Northern Ireland Housing Executive. Figures for 1971 and 1976 include housing association and private rented dwellings combined because separate tenure-specific figures are not available for those years.
  4. Historic figures for England and Wales were revised (in 2010/11) to reflect new DCLG methodology for determining the split between owner-occupied and privately rented dwellings.
  5. For 2015, percentage figures for Northern Ireland are based directly on those obtained from the Continuous Household Survey; the figures for numbers of dwellings are derived from these percentages applied to the total stock count. The published percentages do not include decimal places.
