Notes: Other economic inactive includes people who were permanently sick or disabled, in full-time education or looking after the family at home. Figures from 2001/02 are for the household reference person. Estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites, etc.) Dashes indicate sample size too small to provide a reliable estimate. For 1984 data see earlier editions of the Review.
