Sources: ONS General Household Surveys 1972 to 2006, General Lifestyle Survey 2008 and Living Costs and Food Survey (LCF) from 2010 onwards.

- Notes:
1. Income figures are averages for usual gross income of the household reference person.
 2. Local authority tenants includes new town and other public sector tenants.
 3. Since 2000, the 'household reference person' has been the highest-earning householder and not the male householder, resulting in a discontinuity in the series.
 4. Figures from 2017 are for all UK and not just GB household reference persons, creating a further discontinuity.
 5. LCF income estimates exclude receipt of housing benefit or council tax benefit (rent rebate in Northern Ireland).
