Notes: 1. Disposable income is defined as gross income minus deductions for income tax, national insurance and council tax in Britain and rates in Northern Ireland.

2. Pensions and annuities exclude social security benefits.

3. Social security cash benefits include tax credits and government training scheme allowances but exclude housing benefit and council tax reduction (NI rates rebate).

4. All tenants whose accommodation goes with the job of someone in the household are allocated to 'rented privately'.

5. Unfurnished includes partly furnished. Small percentage figures for income sources for private rent-free and furnished sectors should be treated with much caution.
