Source: UK Finance.
Notes: 1. Loans outstanding are those at the end of each period. Lending figures have been grossed to cover all lenders and estimated where actual figures were not provided.
2. Average new gross advances exclude further advances, and are rounded to the nearest $£ 1,000$.
3. Results for the years to 2004 may be compared over time but care should be taken with pre-2000 figures.
4. There is a discontinuity from 2005, when an additional large lender started to submit data. Also from 2005 the numbers and percentage of cases with 3(+) months arrears includes those in receivership; but not those taken into lender possession.
