Notes: All figures based on standard income support and housing benefit rates as they apply from April 2018. Figures are for cases without child care costs eligible for assistance under the tax credit scheme.

The housing benefit allowances and earnings disregards are set against net earnings (and tax credits). For consistency, all figures assume an adult working 30 or more hours per week, although in some cases this implies hourly earnings below the level of the minimum wage at April 2017 (£7.83 per hour). The cases based on an adult working for 30 hours or more at sub-minimum wage rates are shown in *italics*.
