Notes: 1. The lower income boundary refers to the gross income at the bottom of the range for each decile.

2. All tenants in tied accommodation (i.e. accommodation that goes with the job of someone in the household) are coded private rented, even if the landlord is a social landlord.

3. Unfurnished includes partly furnished.

4. Figures in [ ] and italics should be used with extra caution because they are based on fewer than 20 reporting households.
