Notes: 1. Caution should be used in comparing 2020/21 forecast figures with outturn figures as the former are subject to sizeable revisions.

2. When the forecasts were produced there was insufficient certainty about Brexit or Covid-19 to confidently assess their likely impact on the UK public sector finances.

3. Outturn TME for years from 2014/15 include ONS classification changes (e.g. student loans, pensions) that are not fully included for earlier years.

4. Figures for earlier years for Table 12a, 12b and 12c can be found in previous editions of the *Review*, but treat with caution. Historical data are subject to ongoing revision and the latest data may not be consistent with earlier releases.

- Notes:
1. Current receipts (and consequently related measures) include windfall tax receipts and associated spending.
 2. Gross capital investment is net of asset sales.
 3. Public Sector Net Debt is reported as a percentage of GDP at the end of the financial year and not for the financial year.
 4. General Government Net Borrowing and Gross Debt are on a Maastricht Treaty basis.
 5. Forecast years from 2020/21 are consistent with the OBR Economic and Fiscal Outlook forecast published March 2020.
 6. Outturn fiscal data consistent with the ONS/HM Treasury Public Sector Finances Statistical Bulletin released on 21st July 2020.
