Source: UK Finance Regulated Mortgage Survey and Family Resources Survey.

- Notes:
1. Based on mortgage costs for simple average house prices and average gross incomes for households with at least one person in full-time employment.
  2. Mortgage costs assume a 25-year repayment mortgage, BoE average mortgage rates and a constant 82% mortgage advance, in line with the average over the period.
  3. The Index measures affordability compared with the 1994 base: the higher the index, the more unaffordable homeownership is.
