\* In previous editions of the *Review*, this was Table 59.

Sources: See Tables 64, 76 & 82. English and Welsh private finance figures are authors' estimates based on grant levels and outturn grant rates: private finance figures are to be reviewed for the next edition of the *Review*.

Notes: English figures include HAG on deferred interest, but exclude expenditure under the rough sleepers, ERCF and other 'non-ADP' programmes. In Scotland and Wales, councils provided their funding for housing associations through Communities Scotland and the Welsh Government. Scottish figures exclude provision for NLF repayments, expenditure on Scottish Homes' properties, 'GRO' grants to private developers, and housing association investment in Mid-Market Rent (MMR) schemes.

Homes England took over from the HCA and previously the Housing Corporation as state funder of housing associations in England in 2008/09. The England figures from 2008/09 include all HE/HCA affordable housing programmes.

Private finance figures for England and Wales estimated by authors and include contribution of HA own resources as well as private borrowing. England estimates from 2008/09 to 2011/12 based on overall funding model for HCA NAHP – as recorded by the National Audit Office. Round estimates from 2011/12 reflect the much lower grant rate for Affordable Rent schemes. Scottish figures for 2018/19 are provisional.
