* In previous editions of the *Review*, this was Table 64.

Sources: Cms 1508, 3207, 3607 and 4204; Housing Corporation Investment Bulletins 1999 to 2004; HCA Annual Reports 2008/09 onwards; unpublished HE figures.

Notes: Homes England was formed in January 2018. The HE and previous HCA Affordable Homes Programmes (AHP) ran from 2011/12; the HCA/Housing Corporation predecessor programmes are the National Affordable Housing Programme (NAHP) and Approved Development Programme (ADP).

Figures also include the Kickstart Housing Delivery programme from 2009/10. HE has now changed its classification of expenditures, and outturn expenditures for 2010/11 and 2011/12 have been 'restated'.

Housing Corporation Annual Accounts from 2003/04 onwards did not provide a split between grants for rent and grants for sale (other than through some designated sales schemes).

Non-AHP receipts are loan receipts, including those, in 1996/97 and 1997/98, from the sale of the Housing Corporation loans portfolio. For details of other programmes see Table 64 in earlier editions.

From 2012/13 the Affordable Homes Programme for London has been funded through the GLA, not HE. Figures in this table relate solely to Homes England/HCA. The GLA funding is included in the local authority figures in Table 64.
