- Notes:
1. Lettings figures are for general needs lettings to tenants new to the social rented sector. From 2011/12 the figures include both social and affordable rented lettings.
 2. Figures exclude lettings to both former local authority and housing association general needs tenants, but may include lets to former supported housing tenants.
 3. Regional figures do not precisely sum to the England total, as these latter are subject to weighting and imputation processes to address bias and non-response.
