* In previous editions of the *Review*, this was Table 107.

Sources: HM Revenue and Customs Stamp Tax Statistics, Revenue Scotland LBTT Statistics, Inland Revenue Statistics 2004 and earlier editions.

Notes: 1. Figures for the years to 1996/97 are for standard statistical regions; from 1996/97 onwards figures are for government office regions. Where the boundaries differ, the former standard statistical regions are shown in italics below.

2. From 2004/05 onwards the data are derived from the Stamp Duty Land Tax database. Regional figures may not add up to the 'England' figure due to rounding.

3. Stamp duty ceased being charged in Scotland from April 2015. From 2015/16 onwards the Scotland figure is for Land and Buildings Transaction Tax.
