Source: ONS, Living Costs and Food Survey, including supplementary data supplied by ONS.

Notes: 1. All tenants whose home goes with the job of someone in the household are allocated to 'rented privately'. This includes social tenants and squatters. Unfurnished includes households that rent partly furnished. In process of buying includes shared equity and shared ownership buyers.

2. Data for rented households with second homes are based on very small numbers and should be treated with great caution.

3. Data for CD player and satellite receiver no longer collected; figures for 2010 can be found in previous versions of this table.

4. Figures within parentheses [] are based on less than 20 recording households and should be used with extra caution.
