Source: ONS: Deaths of homeless people by country and region, England and Wales, 2013 to 2019 and NRS Homeless Deaths 2017 to 2018.

- Notes:
1. All figures are experimental and are for all estimated deaths registered in region, rather than deaths occurring, in each calendar year.
 2. Figures are based on person's place of death and not area of usual residence.
 3. Figures for regions may not sum to the total number of estimated deaths for England due to ONS rounding.
 4. Figures refer to homeless people aged 15-74 years and rates for all areas are based on total population in each area aged 15 to 74 years.
 5. Figures for Scotland are only available from 2017.
 6. Whilst the methodologies used by NRS and ONS are similar, it is not possible to combine to produce a GB wide figure.
