Sources: DCLG Housing Statistics to 2003/04. MHCLG (and predecessors) CORE local authority level tables from 2004/5.

Notes: 1. Lettings figures are for general needs lettings to tenants new to the social rented sector. From 2011/12 the figures include both social and Affordable Rented lettings.

2. Figures include lettings to those who previously lived in supported housing.

3. The figures do not precisely match figures in table 97 as they are based on local level data, which is not subject to the weighting and imputation processes applied to the national data to address bias and non-response.
