Sources: 2015 Global Accounts of Housing Providers, Homes and Communities Agency, 2016. Also 2001-2013 editions (Housing Corporation, TSA and HCA).

Notes: 1. From 2007 the Global Accounts were limited to associations with more than 1,000 properties, previously these related to those with more than 250 properties.

2. 'Total assets less current liabilities' does not include pension deficits.

3. Accounts for 2011/12 and later do not indicate different types of reserves nor different types of grant.

4. The adoption of new reporting standards has materially changed the presentation of the Global Accounts from 2016/17 onwards. This includes different accounting treatments for government grant, the valuation of housing properties and the measurement of financial instruments. More items are also counted as capital. The net impact is that it is no longer possible to produce directly comparable figures for 2015/16 onwards.

Tables 71c and 71d therefore report income and expenditure of housing associations using the new accounting conventions.

Sources: Regulator of Social Housing 2024 Global Accounts of Private Registered Providers and previous editions.

- Notes:
1. The Global Accounts for 2016 onwards have been materially revised to allow for the Housing Statement of Recommended Practice (SORP 2014) and Financial Reporting Standard 102 (FRS102).
 2. These data are obtained from the annual account regulatory returns (known as FVAs) submitted by private registered providers (PRPs) managing at least 1,000 units and are derived from their audited financial statements.
 3. Figures in the table are based on consolidated financial statements (e.g. group structure level), which provide a clearer view of activity, such as open market sales by unregistered subsidiaries.
 4. In response to government policy to reduce social rents by 1% per annum from 2016/17 to 2019/20, housing associations' revised business plans included a reduction in spend on major repairs.
