Sources: Scottish Government Housing Revenue Account Statistics, Private Sector Rent Statistics Bulletins, Scottish Housing Regulator Charter data (before 2014 Annual Statistical Return and SCORE), DWP Family Resources Survey, ONS Annual Survey of Hours and Earnings and Table 54.

- Notes:
1. Unless stated otherwise, all rent figures are for financial years. Earnings figures refer to average earnings (including overtime) for all adults in Scotland in full-time work.
  2. Up to 2012, average local authority rents and the subsidy assumption rent levels used to calculate Housing Support Grant (HSG) came from HRA statistics. From 2013 average local authority rents are derived from the Annual Return on the Charter (ARC) and are for self-contained units and inclusive of housing benefit eligible service charges. From 2007/08, only Shetland Islands Council was in receipt of HSG.
  3. Average housing association rents from 1990 to 2012 are based on assured and fair rent figures derived from SCORE. Between 2008 and 2012 these rents included housing benefit eligible service charges. From 2013, average housing association rents are derived from ARC and are for self-contained units and inclusive of housing benefit eligible service charges. SCORE data on fair rents are not available for 2003 to 2007.
  4. Median-based private sector fair rents are for the calendar year and are derived from the Rent Service Scotland data. Figures are not available for 1994 or 1995. Figures prior to 1994 are for unfurnished lettings only whilst figures from 1996 are for both furnished and unfurnished lettings.
  5. Private market rents for years prior to 2010 are those determined by the Rent Officer when referred for housing benefit purposes. Those from 2010/11 and 2011/12 are estimates derived from the Rent Service Scotland market evidence database and are for the year to the end of September. Those from 2012/13 are as reported in Table 54.
  6. The 'all private rents' figures from 2002 are derived from the FRS and are for all lettings, other than rent-free. These figures should be treated with caution, especially from 2020/21 onwards, and viewed as illustrative only due to small samples achieved.
