Homeless households as a % of all housing association supported housing lettings	15	15	15	15	19	17	15	16	16	20	20	17	29	31

Sources: MHCLG (and predecessors) Social housing lettings (SHL) in England, SHL tenancies summary tables and SHL tenants summary tables - all data derived from CORE (Continuous Recording system).

- Notes:
1. The lettings data exclude mutual exchanges as well as lettings with a tenancy length of less than 2 years as these are deemed temporary. Letting figures for 2020/21 were impacted by the effects of the Covid-19 pandemic.
 2. The definition of supported housing changed from 2004/05 resulting in a reduction in recorded housing association general needs lettings (see Table 97).
 3. From 2019/20 'statutory homeless' recorded in CORE is defined in accord with the Homelessness Reduction Act 2018 and includes all households assessed as homeless (or threatened with homelessness within the next 56 days) by a local authority and owed a prevention, relief or main homeless duty. For 2018/19 and earlier 'statutory homeless' is defined as those found 'statutory homeless' by a local housing authority.
 4. Figures for lettings to homeless households are currently only available from CORE from 2007/08 onwards.
 5. Some of those rehoused as statutory homeless may have previously held a social tenancy.
 6. The numbers of CORE lettings to homeless households is lower than recorded in official homeless statistics, which is most likely because lettings to prevent homelessness are not always being recorded as a let to statutory homeless.

Table 99b General lettings by social landlords to homeless households by region in England

Percentage of all lettings to new tenants

Region	1980/81	1990/91	1995/96	2000/01	2001/02	2002/03	2003/04	2004/05	2005/06	2006/07	2007/08	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19

Sources: MHCLG (and its predecessors) Housing Strategy Statistical Annex (HSSA), Local Authority housing Statistics (LAHS), Social Housing Lettings in England and Live Table 601.

- Notes:
1. Percentages to 1987/88 are for secure lettings to homeless households only. From 1988/89 they are based on secure and non-secure lettings to reflect the increasing numbers of non-secure lettings made. In 2003/4 some 61 percent of all lettings to new tenants were non-secure in spite of the exclusion of non-secure lettings to homeless households in that year.
 2. Figures refer to both social rent and Affordable Rent general needs lettings and exclude lettings to internal transfers prior to 2009/10 and transfers from other social landlords from 2010/11 onwards. The definition of supported housing changed in 2004/05, reducing the number of lettings defined as general needs.
 3. With the introduction of the Homelessness Reduction Act from April 2018, those granted prevention or relief duties have been included in the statutory homeless category. Some of those rehoused as statutory homeless will have previously held a social tenancy.
 4. From 2011/12 the percentage figures are based on lettings to new social tenants identifiable in CORE.
 5. CORE lettings data for local authorities are far less comprehensive than HSSA and the more recent LAHS. MHCLG weight national but not local authority level data to allow for this. The regional figures are therefore intended to illustrate trends rather than provide precise numbers. The figures in Table 99a should be quoted if referring to England.
 6. Following changes in data collection and reporting, it has not been possible to update this table since 2018/19.
